Careful dentistry, explained in plain language

Marlowe Dental is a small private practice. Every visit starts with a conversation, a written plan and a fixed price before we touch a tooth.

What we treat

Six areas cover almost everything patients come to us for. If something is outside our scope, we refer you to someone we trust.

Ask about a treatment

01 **Dental implants** — 3 to 5 months

Single teeth to full arches, planned on a 3D scan so you can see the result before surgery.

02 **Clear aligners** — 6 to 18 months

Removable aligners for adults and teens, with check-ins every six weeks.

03 **Veneers and bonding** — 2 visits

Fix shape, colour and small gaps with thin ceramic or composite, whichever suits your bite.

04 **Teeth whitening** — 60 minutes

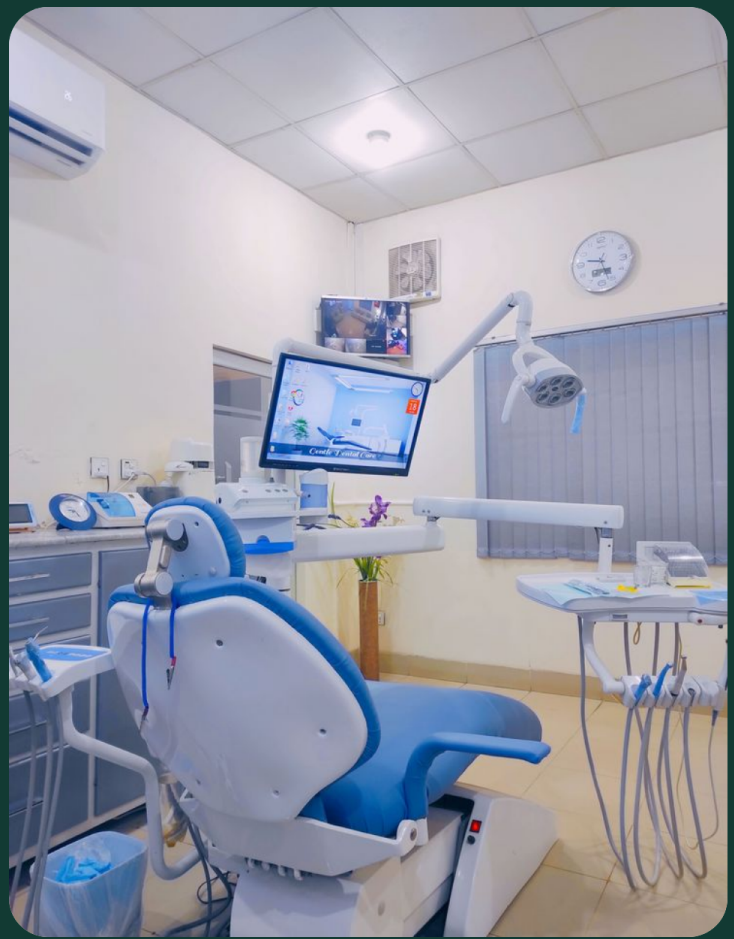

In-chair or take-home, chosen after we check your enamel and any sensitivity.

05 **Check-ups and hygiene** — 45 minutes

A proper clean, X-rays when needed, and an honest look at what can wait.

06 **Emergency care** — Same day

Toothache, chipped teeth and lost fillings are seen the same day.

We explain before we treat

1. **Plan first**
   You receive a written plan with options and fixed prices before any treatment starts.

2. **Fewer, longer visits**
   Longer appointments mean work is finished properly instead of stretched across many short ones.

3. **Comfort is not optional**
   Numbing gel, headphones, and a break whenever you raise a hand. Nervous patients are our regulars.

What the first visit looks like

Most new patients are in and out in about 75 minutes, with everything explained on screen.

1

Send us a message

Tell us what is bothering you. We reply within one working day.

2

Scan and conversation

A gentle exam, a 3D scan and time to ask everything you want.

3

Your written plan

Options, timing and fixed prices on paper. Take it home and decide.

4

Treatment and follow-up

We book longer slots, finish the work, then check in after two weeks.

Three dentists, one small team

You see the same dentist at every visit. No rotating associates, no handovers halfway through treatment.

AO

Dr. Amara Okonkwo

Implants and restorative

DDS, 14 years in practice

English, French, Igbo

LB

Dr. Lukas Brandt

Orthodontics and aligners

DMD, MSc Orthodontics

English, German

MT

Dr. Mei Tanaka

General and family dentistry

DDS, 9 years in practice

English, Japanese, Mandarin

What patients tell us afterwards

I flew in from Dubai for two implants, and the price on the plan is the price I paid.

Rania A. traveled for treatment

First dentist in years who did not make me feel guilty about my teeth.

Tom W. new patient

They showed me the X-ray on screen and let me decide. Simple as that.

Elena V. aligner patient

Questions we hear most

Cannot find yours? Message the front desk and a person will answer.

Is the first consultation charged? −

The consultation and scan are a flat fee, and we deduct it from your treatment if you go ahead with us.

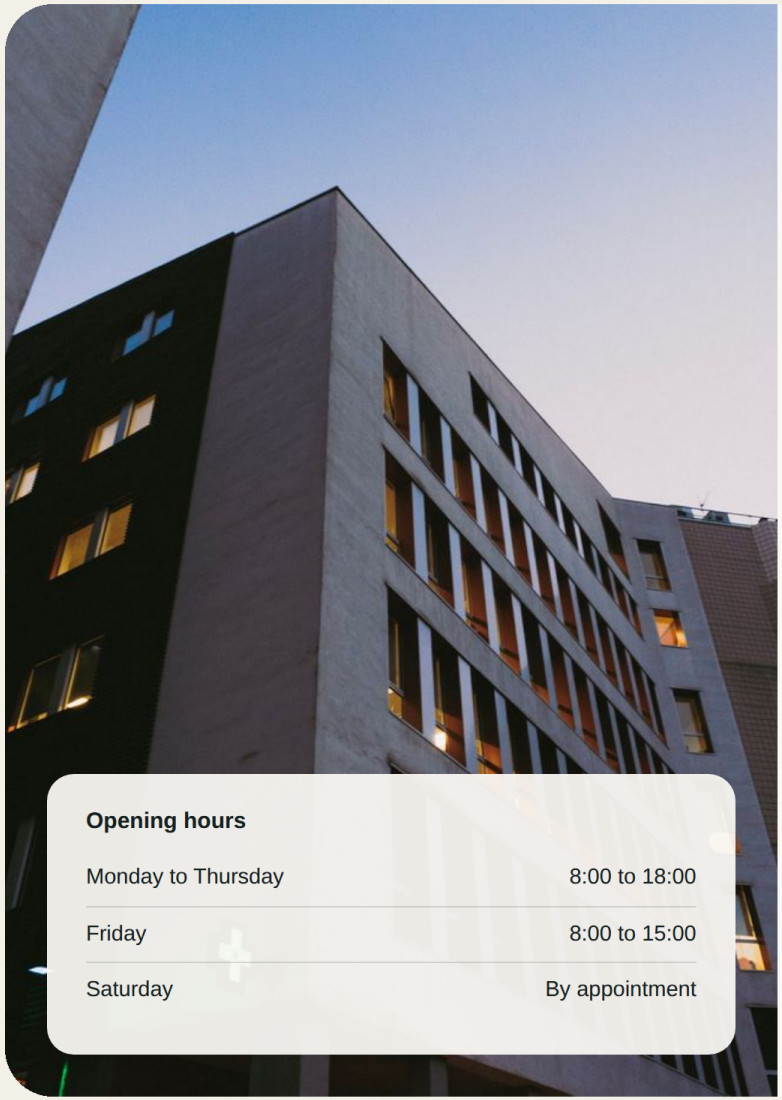

I am visiting from abroad. Can treatment fit one trip? −

Many international patients complete check-ups, whitening and veneers in one week. Implants need two trips, and we plan both dates with you upfront.

Do you work with insurance? +

What happens in a dental emergency? +

Can I pay in instalments? +

Opening hours

Monday to Thursday	8:00 to 18:00
Friday	8:00 to 15:00
Saturday	By appointment
